Professional Summary

Motivated with a strong focus on offensive security, penetration testing, and vulnerability assessment. Skilled in ethical hacking techniques using tools like Burp Suite, Nmap, and Wireshark. Hands-on experience solving real-world labs on PortSwigger Web Security Academy, HTB and TryHackMe, specializing in web vulnerabilities, and exploitation.

Education

Bachelor of Computer Science – University of Asyut (2022 – Present)

Certifications & Courses

- **Cisco Cybersecurity Engineering** – Digital Egypt Pioneers Initiative (6 months, 2024)

- **eCIR Prep** – Netriders.Academy (52 hours)

- **Red Teaming, Ethical Hacking, Bug Hunting & Penetration Testing** – (90 hours)

- **Cybersecurity Certificate – IBM SkillsBuild & MCIT** (May 2025)

Projects & Experience

- **University Network Infrastructure Project** – Designed a secure network with segmentation, firewall policies, and access control measures. Configured routers, switches, and security protocols for optimized performance.

- **CTF & Lab Solving**: Solved labs (Web vulnerabilities: SQLi, XSS, Penetration Testing).

Technical Skills

- **Security Tools:** Burp Suite, Nmap, Wireshark, Hydra, Kali Linux, Metasploit.

- **Offensive Security:** Penetration Testing, Vulnerability Scanning, ethical hacking.

- **Network Technologies (**Firewalls, VPN, VLANs, CCNA, Multi-Layer Switching, DHCP, DNS, OSPF, HSRP).

- **Programming & Scripting** (Python, C++, C, Java, PHP).

Languages: **Arabic:** Native.   **English:** Intermediate.
